WOOD'S SEEDS

for FALL PLANTING 1929

CRIMSON CLOVER
The wonderful soil improver

T.W. WOOD & SONS
SEEDSMEN RICHMOND, VA.
Wood’s Famous Lawn Grasses

For Best Results, Sow at the Rate of 1 lb. to 250 Square Feet—100 lbs. Per Acre.

WOOD’S EVERGREEN LAWN GRASS

This is positively the very finest mixture of lawn grasses in existence. Contains only the best and finest of turf-forming grasses, none that are coarse or grow in tufts. Included in it is a generous percentage of Creeping Bent, recognized as probably the best of the turf formers of which we now know.

As no one grass can make a fine lawn the year round, we have put into WOOD’S EVERGREEN different varieties that are at their best during different months, so that this mixture presents a succession of verdure through the various seasons of the year. We recommend it for all of Virginia (except the extreme southern and eastern portions), the mountainous districts of the South, and for all States north and east of the Potomac and Ohio Rivers. Prices f.o.b. Richmond: lb. 40c.; 5 lbs. $1.75; 25-lb. lots, 33c. lb.; 100-lb. lots and over, 32c. lb. Postpaid prices: lb. 50c.; 5 lbs. $2.05; 25 lbs. $8.90.

WOOD’S DIXIE LAWN GRASS

GROWS GREEN IN DIXIE’S SUNSHINE

This mixture is the result of a close and intimate study of grasses suited to lawn making and such as are adapted to Southern soils and climate. Every grass suitable for lawn making will not stand the extreme heat and drought so often experienced in the South, so in selecting grasses for this mixture we have taken only those that will give a velvety green lawn under the most trying conditions of summer heat and drought when lawns often become brown and parched. In the easterly section of the Carolinas, and throughout the other States of the far South sow Wood’s Dixie Lawn Grass; in Virginia and further north and in the westerly section of the Carolinas and further west, sow Wood’s Evergreen Lawn Grass. Prices f.o.b. Richmond: lb. 40c.; 5 lbs. $1.75; 25-lb. lots, 33c. lb.; 100-lb. lots and over, 32c. lb. Postpaid prices: lb. 50c.; 5 lbs. $2.05; 25 lbs. $8.90.

LAWN GRASS CIRCULAR, giving full information about preparing the soil, seeding and fertilization of lawns cheerfully sent upon request.

WOOD’S SHADY PARK LAWN GRASS

For use wherever there are trees or shade around club houses or residences we offer this fine mixture with confidence. Only a very few grasses are suitable for shady situations. These we have combined in the Shady Park, thus producing a blend of grasses that is unsurpassed for shady locations. Prices f.o.b. Richmond: lb. 45c.; 5 lbs. $1.90; 25-lb. lots, 36c. lb.; 100-lb. lots and over, 35c. lb. Postpaid prices: lb. 55c.; 5 lbs. $2.20; 25 lbs. $9.65.

WOOD’S WINTER LAWN GRASS

A mixture prepared particularly for the Southern States, where a good green lawn is desired during the fall, winter and spring months. Also well adapted for sowing on Bermuda Grass sod. Prices f.o.b. Richmond: lb. 30c.; 5 lbs. $1.15; 25-lb. lots 21c. lb.; 100-lb. lots and over, 20c. lb. Postpaid prices: lb. 40c.; 5 lbs. $2.00; 25 lbs. $7.25.

THE SOUTH’S LEADING GOLF SUPPLY HOUSE

We carry in stock a complete line of Seeds, Equipment, Fertilizers, etc., for the upkeep of Golf Courses, Estates and Grounds devoted to sport.

Complete information and prices given in our Special Golf Course Equipment Catalog, which will be sent upon request.
About W warranting Seeds —While we use great care, both for our own and our cus-
tomers' interest, to supply and furnish the best seeds that it is possible to obtain, there are so many conditions—weather and other causes—
affecting the growth of seeds and the out-turn of crops, that it must be distinctly under-
stood that all our seeds are sold under the conditions in regard to non-warranty of seeds,
which have been generally adopted by the seed trade and which are as follows:
"We give no warranty, express or implied, as to description, quality, productiveness
or any other matter of any seeds, bulbs or plants we send out, and will not be in any way
responsible for the crop."

W O O D ' S
DIXIE WHITE CLOVER

This superior strain of White Clover which we are introducing this year is one of the most valuable crops that can be grown in the Southern States for grazing purposes. For several years we have made exhaustive tests of Wood's Dixie White Clover in comparison to other strains of White Clover from all over the world, and have found it vastly superior. It makes a tremendous winter and early spring growth. Its leaves and stems are twice as large as the ordinary White Clover, growing fully two inches taller, reaching a height when in full growth of fully ten inches or more.

The coldest weather does not stop its steady growth throughout the winter. It blooms fully a month earlier than ordinary White Clover, reaching full bloom by the 1st of May. The thick mat of growth furnishes valuable grazing, not only for horses and cattle, but especially for sheep and hogs. This new strain of White Clover is not susceptible to disease, and is particularly adapted to all of the Southern States. It thrives well on any kind of land, but is better adapted to sand clay soil. It is a particularly valuable crop for seeding with oats, rye and barley during September and early October. Sow at the rate of 6 to 10 lbs. per acre. Wood's Dixie White Clover is the answer to the grazing problem of the South.

NEW CROP CRIMSON CLOVER

A Valuable Land Improver, Hay and Grazing Crop.

The sowing of Crimson Clover is one of the best methods for restoring worn out fields, and will rapidly bring them up to a high state of cultivation. Also a very valuable crop to follow grain, furnishing an excellent winter cover crop, that can be grazed, cut for hay or turned under as a soil improver in time for planting of corn next year.

When sowing Crimson Clover alone, the best preparation is to prepare the land some time previous to seeding, and then wait for a rain to fall on the prepared soil before sowing the seed. As soon after a rain as the land is dry enough, a light harrow should be run over the soil, in order to break the crust, then sow the clover seed, covering with a light or brush harrow. This method will invariably produce a good stand of Crimson Clover. Sow 15 pounds to the acre during August and September.

The new crop of Crimson Clover in this country is very small, and reports indicate only a medium crop will be produced in Europe. Prices are about as low as we anticipate the coming season, and on the contrary, should the Government increase the tariff on this commodity, we will very likely see an increase in price during latter part of August and September.

We can now offer new crop Tennessee Grown and new crop Imported Crimson Clover for immediate shipment, both of high tested purity and germination. Complete prices on the following page.

WOOD'S FIELD TESTED SEED OATS

Our field tests made of Seed Oats have proven beyond a doubt that there is a decided difference in the various strains of the same varieties. We are continually striving to supply our customers with the most productive varieties for use in the Eastern States, and these repeated tests over a period of years have enabled us to offer Seed Oats that have proven their superiority over Seed Oats generally sold. From the number of letters we have received from our customers it is evident that our Trade Mark Brand Seed Oats are giving increased yields and most satisfactory results from every standpoint. Wood's Pedigree Fulghum Oats are the result of these tests, and have proven to be the largest yielding strain on the market today, being decidedly superior to the ordinary Southern or Western Fulghums.

Hundreds of comparative tests are made annually at our Williamson Farm in Amelia County, Va., on seeds from all sections of the country. As a result of these tests we are prepared to know just what seeds from various localities are best adapted to our Southern growing conditions. Our field test work is done under the supervision of Mr. W. P. Wood, Jr., graduate of V. P. I. Agricultural College, and also has taken the post graduate course at Cornell University.
TREATING SEED WHEAT WITH COPPER CARBONATE

Experimental Stations recommend treating all Seed Wheat with Copper Carbonate for prevention against stinking smut. We will treat any variety quoted above at an extra charge of 10 cents per bushel.

“Standard” Wheat Fertilizer, A. P. A. 12; Am. 2; Potash 4; 200-lb. bag, $8.25; ton, $30.00.

Wood's Southern Pasture Mixture

Realizing the urgent need for a permanent pasture mixture suitable for Southern conditions, we have assembled a mixture of Southern grasses and clovers admirably adapted to seeding during the months of September and October in the Southern States.

This mixture is made up of grasses, each of which has its own merit as a pasture grass, and the adaptability of the different grasses to the Southern climate have been considered in blending this mixture.

We are putting this mixture up under two different formulas:

One entirely free of Bermuda Grass and the other containing 20% of Bermuda Grass. For land desired for permanent pasture only we recommend the mixture with Bermuda Grass. Where Bermuda Grass is used the permanency for summer grazing is better assured than if left out.

Prices: 5 lbs. 50c.; 25 lbs. $1.75; 50 lbs. $3.00; 100 lbs. $5.00.

VIGORO is the ideal plant food for whatever you grow. A Swift & Co.'s product. Prices: 5 lbs. 50c.; 25 lbs. $1.75; 50 lbs. $3.00; 100 lbs. $5.00.

ONION SETS—See page 13.
USE WOOD'S SUPER-CLEANED SEED WHEAT FOR HIGHER YIELDS

WHEAT THAT WILL BRING YOU A HIGHER MARKET VALUE AND EXTRA DIVIDENDS NEXT HARVEST

It is most important that you consider your Seed Wheat requirements carefully this year. There is a great scarcity of good, plump, heavy Seed Wheat this fall and seed of this character will be in very heavy demand at planting time. Crops in the East, as well as the large wheat growing sections of the West, are turning out much smaller than anticipated, which has resulted in a heavy advance in values. Excess rainfall at harvest, and unfavorable growing weather for the proper development of the crop, has damaged wheat considerably, causing a large majority of the crop to be chaffy, shrivelled and unsuitable for seeding purposes. We have seen more wheat of this character than in a great many years. Many crops are only weighing out from 55 to 57 pounds to the bushel. Even the better lots contain a large percentage of small and shrivelled grains, that when used for seed will mean a big loss next harvest.

WOOD'S SEED WHEAT IS PAYING DIVIDENDS.

Farmers who used our strains of Seed Wheat last fall have been doubly repaid for the slight extra cost in obtaining the best, Wood's Seed Wheat has a pedigree, and can always be sold for seed at a premium over ordinary crops. Many are reporting larger yields than their neighbors who have been planting ordinary wheat that they could buy cheaper. Proper cleaning of Seed Wheat this year is very important. Our triple process of recleaning Seed Wheat is not equalled by any other seedsman in the East. Every bag of Woods Seed Wheat when received is immediately put through our machines and heavily fanned to keep it in good condition. This wheat is then carefully stored until September and October, when it triple recleaned over our special machinery which eliminates all lightweight grains, trash, weed seeds, etc. Every lot must be at least 99% pure, entirely free from weeds, and over 99% germination before being sent to our customers. To every bag is attached our analysis tag, which meets the requirements of all State Seed Laws. In fact, the large majority of our Seed Wheat tests from 99.5% to 100% pure and over 95% germination, and is the cleanest, heaviest and most vigorous growing Seed Wheat obtainable, regardless of price.

BE SURE AND TREAT YOUR SEED WHEAT

Regardless of where you secure your seed, it is cheap insurance to treat all wheat for seeding purposes with copper carbonate as a preventive against stinking smut. These smuts may be carried on sacks, bins or by threshing machines, and in many cases can only be seen through a microscope. Every Experimental Station recommends this treatment of Seed Wheat. Last year we treated over 9,000 bushels of our Seed Wheat for our customers, and so far as we can find out has proven 100% effective. We will treat any variety of Seed Wheat which we offer at a charge of 10 cents per bushel over the price quoted in this Catalog. This only covers the actual expense of labor in treating, chemical used and rehandling. We use the highest grade 50% Copper Carbonate as recommended by the Experimental Stations.

WOOD'S FORWARD WHEAT

RECORD YIELDS—WINTER HARDY—SMUT RESISTANT

Wood's Forward Wheat is a smooth wheat, developed from Bearded Fulcaster, and combines the good characters of both, having the large yields of smooth and the winter hardiness of bearded. In an eight-year test at an Eastern Experimental Station it outyielded 1,000 strains of the best wheats in the world. It is fast becoming the most popular variety in the soft red winter wheat belt of America. It is already the leading wheat in New York and Pennsylvania. We are receiving testimonials from our customers we supplied seed to in every section of Virginia, North Carolina and Maryland, which indicate that it is becoming the leading variety in the East. W. R. Perkins, of the Virginia Crop Improvement Association says: "The acreage of Forward Wheat in the State this year exceeds that of both Leap's Prolific and V. P. I. No. 112, and the majority of it looks as if it will outyield the other varieties."

Last year Mr. H. H. Willis, of Culpeper, reported the record yield of 47 bushels per acre, and Mr. W. J. Sorrell, Dunn, N. C., made 49 bushels per acre on a field said to have been the prettiest lot of wheat ever grown in that county. This year, which was a very unfavorable season, Mr. T. E. Thomas, of Fredericksburg, Va., made 37 bushels per acre; Mr. R. E. Cleek, Port Conway, Va., made 22 bushels; Mr. W. M. Andrews, Hanover, Va., made 27 bushels per acre on poor land, where the average in his locality on good land was around 15 bushels.

What pluses so many farmers in its tall, stiff straw that never falls down, even where other wheat in adjoining fields is ruined by lodging.

Other valuable features are its unusual stooling ability, adaptability to different types of soil and climate, its large, hard, dark grain and resistance to smut and other diseases. It ripens early and can be put on the market before other varieties, getting the higher early prices. The heads are compact and the grain is plump and weighs heavy. It runs three to four grains to the head.
LEADING VARIETIES OF SEED WHEAT

We always carry complete stocks of the leading strains of Seed Wheat that are adapted for planting in the Eastern and Southern States.

**Leap's Prolific.**—Of the smooth varieties, is the outstanding strain next to Forward, and is a very popular variety in Virginia and the Carolinas. It is very uniform in growth, stools well and produces a stiff straw with long, heavy heads. Our strain is grown from certified seed, and we can confidently recommend it to our trade. The supply of genuine Leap's Prolific Wheat, as well as other smooth wheats, are unusually scarce this season.

**V. P. I. No. 131,** a bearded variety, has proven to be one of the best yielders in this State among the bearded wheats, and is destined to be the leading wheat grown by farmers in the East. We can supply both our regular strain of this wheat, grown from certified seed, and we can confidently recommend our American-grown seed, grown under the supervision of the Virginia Crop Improvement Association, both of which can be depended upon to give maximum yields.

**Purple Straw.**—The majority of the so-called Purple Straw Wheat generally offered is a misnomer to a large extent, and is badly mixed. In an endeavor to offer our customers the genuine strain of this variety, which is so popular in the South, we have grown Purple Straw Wheat on our own farm, from seed taken from a three-year head selection. This crop, so far as inspection could be made, is 100% genuine Purple Straw, and one of the most uniform crops that we have ever seen. There is only a limited quantity of this wheat available, and early orders are suggested before stocks are exhausted.

We have also available fine quality wheats of the following varieties: **Red May, Red Wonder, Stoner, Pulcaster and V. P. I. No. 112,** as well as the certified strains. Prices given on page 7.

**AUSTRIAN WINTER PEAS**

For centuries one of the most reliable winter hay crops in Central Europe has been Austrian Winter Peas. Its coarse, strong leaves and violets make it even more hardy than Hairy Vetch. It grows continuously throughout the winter, making more growth in early spring than Hairy Vetch. For a winter cover crop, or for early turning under, there is no equal.

**Hairy Vetch**

AMERICAN OR IMPORTED GROWN

In an effort to determine the relative value of both American and Imported grown Hairy Vetch, we have made exhaustive tests over a period of years in a given farm in Virginia, as well as in North Carolina, under the supervision of Plant Breeders and County Agents in various sections of the State. In practically every test the American-grown seed has proven the best adapted, making a larger growth. P. H. Kim, Plant Breeder of the North Carolina State College, reports American-grown Hairy Vetch is superior to imported seed. He also says it is better to pay two to four cents more for Hairy Vetch than for Hungarian and Common Vetch. J. Claude Williams, Cumberland County, N. C., says Wood's American-grown Hairy Vetch is everything a man could wish a Vetch to be, and is better than imported seed.

Experience has shown that Hairy Vetch grown on the Pacific Coast is becoming rather badly mixed with Oregon and Common Vetch. The same condition is showing up to a lesser extent in the imported seed. The General American Hairy Vetch which we offer is grown in the finest agricultural sections of the Midwest. It is entirely free from mixture, and is testing well over 99% pure with only a trace of weed content, and the average germination runs 95%. We can confidently recommend our American-grown Hairy Vetch as the most dependable seed on the market, and well worth the slight premium asked over imported seed.

The use of Hairy Vetch in the South is increasing enormously on account of its dependability, making an excellent pasturage, hay and soiling crop. The sowing of oats with Vetch for support is recommended when the crop is to be cut for hay.

Sow at the rate of 25 to 30 pounds of Vetch with 1 to 1 bushel of oats per acre.

**Wood’s Pedigree Abruzzi Rye**

The Most Popular Grazing and Grain Crop in the South.

The use of Abruzzi Rye is becoming one of the leading crops in the Southern States. Furnishes a fine winter and early spring grazing crop, and when allowed to mature will give a cash crop equal to or greater in value than wheat, besides furnishing an excellent winter cover crop. Abruzzi has almost entirely taken the place of the ordinary Western Rye, owing to its quicker growth in the spring, earlier and better pasturage and marked increase in the cash value as a grain crop. The use of any other varieties of rye in the Eastern States, except as a cover crop, means considerably lower income per acre.

Wood's Pedigree Abruzzi Rye is grown by reliable growers in this State, from Certified Seed, supplied by us, and can be depended upon to be the best productive strain available. Our Pedigree stock is carefully re-cleaned, and practically free from weed seed, showing a high test both in purity and germination.

Owing to the premium which Abruzzi Rye commands, the sale of ordinary local or Western Rye is being made quite generally as Abruzzi, resulting in a material loss to farmers of the South. On this account the U. S. Department of Agriculture, in conjunction with the Virginia Department of Agriculture, are warning farmers to be very careful in their purchase of Abruzzi Rye. Last year and previous years large quantities of ordinary Western Rye was shipped into the South as Abruzzi, and sold at prices under the established value of genuine Abruzzi Rye. When buying Wood's Pedigree Abruzzi Rye, you are assured of the genuine strain, and your increased per acre production will more than offset the slight increase in original cost.

**WOOD’S TRADE MARK BRAND SEED OATS, RYE AND WHEAT**

are packed in new 2-bushel heavy 10-ounce burlap sacks. They are readily identified by the three red stripes at top and bottom, with the name “Wood’s Seeds” in a circle. Analysis cards of germination, yield and weed seed content are attached to all bags and cover the requirements of all State seed laws.

Harvesting a crop of 60 acres of Wood's Pedigree Abruzzi Rye grown by Mr. R. L. Cleek
No. 93. Wood's Selected Early Jersey Wakefield—

The finest strain of American grown early Jersey Wakefield cabbage is as pure a strain as careful selection can make it. It is one of the most desirable early varieties. Ours is as pure a strain as careful selection can make it. It is the equal of any grown for home use or for market. You should have Wood's Early Extra, for it is the earliest cabbage in cultivation and one of the most desirable early varieties. Larger than the Wakefield; not quite as solid, but fully a week earlier. The quality is good, with few loose leaves; hardy and resistant to unfavorable conditions. Pkt. 10c.; oz. 30c.; 1 lb. 90c.; lb. $3.00; 2 lbs. $5.50; 5 lbs. $13.25 postpaid.

No. 94. Wood's Garden Seeds for Fall Planting

CULTURE.—For fall and early spring setting, plant from the end of September till the first of January. November and December plantings should be made in cold frames or hot beds. Plants from early fall plantings can be set out the end of October or during November to head up early in the spring. Set 15 inches apart in rows 2½ to 3 feet apart, running the rows east and west and setting the plants on the north side of the ridge to prevent the frequent freezing and thawing so injurious to cabbage. Requires a rich soil, plenty of moisture and a highly ammoniated fertilizer, also frequent deep working. One ounce plants 100 feet; 6 to 8 ozs. will make enough plants for an acre.

No. 100. Henderson's Succession—A splendid sort whether grown for mid-summer or the late crop, and it makes cabbage for a long succession. A sure header, makes large, flat, solid heads that in quality are the equal of any. Pkt. 5c.; oz. 25c.; 2 ozs. 40c.; 1 lb. 70c.; lb. $2.50; 2 lbs. $4.60; 5 lbs. $11.00 postpaid.

No. 96. All Head Early—A thoroughbred cabbage that adapts itself to a wide range of soils and climate. Makes a deep, flat, solid and uniform head in color, shape and size. In tenderness it is unsurpassed. Pkt. 5c.; oz. 25c.; 2 ozs. 40c.; 1 lb. 70c.; lb. $2.50; 2 lbs. $4.60; 5 lbs. $11.00 postpaid.

No. 95. Early Flat Dutch—To follow the Cascade, this is in every way satisfactory. Whether you grow for home use or for market, you should have Early Flat Dutch as it adapts itself to a wide range of soils and climate. Makes a deep, flat, solid and uniform head in color, shape and size. In quality it is unsurpassed. Pkt. 5c.; oz. 25c.; 2 ozs. 40c.; 1 lb. 70c.; lb. $2.50; 2 lbs. $4.60; 5 lbs. $11.00 postpaid.

No. 91. Copenhagen Market—A round headed cabbage as early as Cedar Creek. This cabbage was unheard of until Copenhagen Market was introduced. In addition to earliness it has remarkable size for so early a cabbage, the heads averaging 8 to 10 pounds; solid and compact. Few outside leaves, allowing close planting. The quality is equal to that of any early cabbage, fine stemmed and tender; the hearts are pure white. Pkt. 10c.; oz. 30c.; 1 lb. $1.00; lb. $3.50; 2 lbs. $6.60; 5 lbs. $15.50 postpaid.

No. 98. Henderson's Early Summer—Although introduced a number of years ago, it still holds its place as an ideal second early cabbage. Forms large, flat, round, solid heads weighing 8 to 10 pounds, and is a sure and reliable header. Comes in about ten days after Early Jersey Wakefield, but is larger. Pkt. 5c.; oz. 25c.; 2 ozs. 40c.; 1 lb. 70c.; lb. $2.50; 2 lbs. $4.60 postpaid.

No. 106. Henderson's Succession—A splendid sort whether grown for mid-summer or the late crop, and it makes cabbage for a long succession. A sure header, makes large, flat, solid heads that in quality are the equal of any. Pkt. 5c.; oz. 25c.; 2 ozs. 40c.; 1 lb. 70c.; lb. $2.50; 2 lbs. $4.60; 5 lbs. $11.00 postpaid.

No. 97. All Seasons—Heads very large and round, or somewhat flattened. Very solid; stands heat and dry weather remarkably well, and keeps as well as the winter sorts; sure heading. Pkt. 5c.; oz. 35c.; 2 ozs. 40c.; 1 lb. 70c.; lb. $2.50; 2 lbs. $4.60; 5 lbs. $11.00 postpaid.

No. 88. Henderson's Early Summer—Although introduced a number of years ago, it still holds its place as an ideal second early cabbage. Forms large, flat, round, solid heads weighing 8 to 10 pounds, and is a sure and reliable header. Comes in about ten days after Early Jersey Wakefield, but is larger. Pkt. 5c.; oz. 25c.; 2 ozs. 40c.; 1 lb. 70c.; lb. $2.50; 2 lbs. $4.60 postpaid.

No. 93. Wood's Selected Early Jersey Wakefield—

The Finest Strain of American Grown Extra Early Wakefield cabbage is as pure a strain as careful selection can make it. It is the equal of any grown for home use or for market. Ours is as pure a strain as careful selection can make it. It is the equal of any.

No. 92. Wood's Copenhagen Market—Another new strain of Copenhagen Market cabbage. Forms large, flat, round, solid heads weighing 8 to 10 pounds, and is a sure and reliable header. Comes in about ten days after Early Jersey Wakefield, but is larger. Pkt. 5c.; oz. 25c.; 2 ozs. 40c.; 1 lb. 70c.; lb. $2.50; 2 lbs. $4.60 postpaid.

No. 85. BROCCOLI—If you have not been successful with cauliflower, try broccoli; it is easier to grow, similar to cauliflower, but taller, the heads more divided, and will stand greater extremes of temperature. Cultivate like cabbage. One ounce produces about 2,000 plants. Pkt. 10c.; oz. 30c.; 1 oz. 50c.; 1 lb. 1.85; 2 lbs. $3.00 postpaid.

CABBAGE SEEDS—The rust resistant variety bred by the U. S. Department of Agriculture. By mail postpaid, 25 for 60c.; 50 for $1.75 per 100. Not prepaid, 50 for 85c.; $1.50 per 100; $12.00 per 1,000.

Washington Rust Resistant—By mail postpaid, 25 for 60c.; 50 for $1.75 per 100. Not prepaid, 50 for 85c.; $1.50 per 100; $12.00 per 1,000.

Palmetto—By mail postpaid, 25 for 50c.; 50 for 85c.; $1.50 per 100. Not prepaid, 50 for 75c.; $1.25 per 100; $10.00 per 1,000.

CORN SALAD OR FETTICUS—Sometimes called Lams Lettuce. A very delightful salad that can be served like lettuce or cooked like spinach. Plant in September to produce salad during the fall. Make the drills a foot apart, cover half an inch, press the soil firmly and cultivate like spinach. No. 135. LARGE SEEDED—By mail postpaid, pkt. 10c.; oz. 15c.; 1 lb. 50c.; lb. $1.50.

APRASAGUS ROOTS—BOOK YOUR ORDER FOR NOVEMBER DELIVERY

WHITE CAPE—If you have not been successful with cauliflower, try broccoli; it is easier to grow, similar to cauliflower, but taller, the heads more divided, and will stand greater extremes of temperature. Cultivate like cabbage. One ounce produces about 2,000 plants. Pkt. 10c.; oz. 30c.; 1 oz. 50c.; 1 lb. 1.85; 2 lbs. $3.00 postpaid.

No. 93. Wood's Selected Early Jersey Wakefield—

The Finest Strain of American Grown Extra Early Wakefield cabbage is as pure a strain as careful selection can make it. It is the equal of any grown for home use or for market. Ours is as pure a strain as careful selection can make it. It is the equal of any.

No. 92. Wood's Copenhagen Market—Another new strain of Copenhagen Market cabbage. Forms large, flat, round, solid heads weighing 8 to 10 pounds, and is a sure and reliable header. Comes in about ten days after Early Jersey Wakefield, but is larger. Pkt. 5c.; oz. 25c.; 2 ozs. 40c.; 1 lb. 70c.; lb. $2.50; 2 lbs. $4.60 postpaid.

No. 85. BROCCOLI—If you have not been successful with cauliflower, try broccoli; it is easier to grow, similar to cauliflower, but taller, the heads more divided, and will stand greater extremes of temperature. Cultivate like cabbage. One ounce produces about 2,000 plants. Pkt. 10c.; oz. 30c.; 1 oz. 50c.; 1 lb. 1.85; 2 lbs. $3.00 postpaid.
CAULIFLOWER — Cauliflower requires the same treatment and cultivation as cabbage. Not quite as hardy, either in resistance to dry hot weather or to cold weather, but where they can be watered during dry spells or protected during the winter they make a very satisfactory crop. Plant in the fall, transplant to cold frames and set out early in the spring.

No. 128 Wood's Earliest Snowball — There is no better cauliflower for Southern growers, and our strain is as fine as can be had at any price. Not only early to head, but a remarkably sure header, making large, solid, perfect, pure white heads of the finest quality. As well adapted to the winter and growing out of doors, Pkt. 20c.; 1 oz. 65c.; 1 lb. $1.25; oz. $0.70; lb. $2.00; db. $25.00 postpaid.

No. 130. Autumn Giant — A valuable late variety. The heads are large and white and remain long fit for use. Pkt. 10c.; 1 oz. 30c.; 1 lb. $1.50; db. $5.50.

No. 188. CURLED CRESS — Can be planted either in the spring or fall. The plants are cut and tied in bunches like water cress. Plant in drills one foot apart. One ounce will plant 200 feet of drill. Pkt. 5c.; 1 oz. 10c.; 1 lb. 30c.; db. 90c. postpaid.

ENDIVE — A delicious salad for fall and winter use. Plant in August and September in 1-inch drills and thin out to one foot apart. When nearly grown, and two to three weeks before it is to be used, tie up the outer leaves to blanch the heart. Fresh plants should be tied up every few days to have them in succession. In dry seasons give plenty of water. An ounce will plant 100 feet of drill. No. 210. GREEN CURLED — Pkt. 10c.; 1 oz. 35c.; 1 lb. $2.25 postpaid.

HORSE RADISH ROOTS — Place your order now for delivery in November. 40c. per doz.; 50 for 85c.; $1.50 per 100 postpaid. Not prepaid, 60c.; 50 for 75c.; $1.40 per 100; 500 for $6.50; $12.00 per 1,000.

KALE OR BORECONE— Siberian and Scotch are the popular sorts for fall sowing. Sow till October 15th, either broadcast or in drills 18 inches apart; give some cultivation, and they will yield greens throughout the winter. Spring or Smooth Kale makes greens earlier than the others. Pkt. 5c.; 1 oz. 10c.; 1 lb. 30c.; db. 90c. postpaid.

Siberian BLUE KALE or DWARF GERMAN KALE — A hardy, vigorous, spreading green kale, with a distinct bluish tinge. So hardy that it will stand the winter without protection and make rapid growth in the spring. The leaves are beautifully curled around the edges and retain their crisp, fresh appearance long after cutting. Slow to run to seed. Pkt. 5c.; 1 oz. 10c.; 1 lb. 35c.; 1 lb. 75c.; 2 lbs. $1.25; 5 lbs. $3.00; 10 lbs. $5.50 postpaid.

No. 221. Dwarf Curled Scotch or Norfolk — The most prized. Makes a quick and large growth; leaves of a bright, deep green color, exquisitely curled and crinkled, very hardy. Pkt. 5c.; 1 lb. 30c.; 1 lb. 35c.; 2 lbs. $1.50; 5 lbs. $3.75; 10 lbs. $6.50 postpaid.

No. 222. Spring or Smooth Kale — SPRING SPROUTS OR HANGOVER SALAD — Largely sown in the fall for cutting during the fall and spring before the winter kinds are ready. Cut it white young and tender; ready in three to four weeks after planting. Pkt. 5c.; 1 lb. 10c.; 1 lb. 35c.; 2 lbs. 60c.; 5 lbs. $1.25; 10 lbs. $2.25 postpaid.

KOHLL RABI — Combines the flavors of the cabbage and turnip and makes a splendid dish if used when two to three inches thick. When they are very tender they make a fine stock food: thin to stand six inches apart. No. 75. EARLY WHITE VIENNA — Pkt. 5c.; 1 oz. 20c.; 1 lb. 60c.; 1 lb. $2.00; 2 lbs. $3.60; 5 lbs. $8.75 postpaid.

LEEK — Sow in September and transplant in the fall or early spring 4 to 6 inches apart in rows 18 inches apart. No. 227. LARGE FLAG — Pkt. 5c.; oz. 20c.; 1 lb. 60c.; 1 lb. $2.00; 2 lbs. $3.60; 5 lbs. $8.75 postpaid.

MUSTARD — Sow during September or October or in February, March or April, either broadcast or in rows 6 inches apart. Sow 1 ounce to 80 feet of drill, or broadcast 5 to 6 lbs. per acre.

No. 290. Southern Giant Curled — The most popular mustard with Southern growers. It forms a great mass of leaves beautifully ruffled and finely curled and crimped around the edges, succulent, mugent and of sweet flavor. Pkt. 5c.; oz. 10c.; 2 ozs. 15c.; 1 lb. 25c.; 1 lb. 75c.; 2 lbs. $1.50; 5 lbs. $2.75 postpaid.

Southern Giant Curled

No. 292. Chinese Broad Leaved — When prepared like kale, makes a quick growth of greens. Ready in six weeks from sowing; tender and free from bitter flavor. Pkt. 5c.; oz. 10c.; 2 ozs. 15c.; 1 lb. 25c.; 1 lb. 75c.; 2 lbs. $1.50; 5 lbs. $3.00 postpaid.

Onion Seeds for Fall Planting

HOW TO GROW ONIONS — Plant in a well-prepared bed in August or September, and when the size of a goose quill transplant 4 inches apart in 18-inch rows, trimming the tops and roots; it is not usual to double the yield by transplanting. For fall planting we recommend Prize Taker, Mammoth Silver King and Copper King. One ounce plants 100 feet of drill; five to six pounds will transplant an acre.

No. 307. Copper King — Attains an enormous size. The skin is a reddish color; flesh white, very sweet, mild and tender. Pkt. 10c.; oz. 25c.; 2 ozs. 40c.; 1 lb. 75c.; 2 lbs. $2.50; 2 lbs. $4.80 postpaid.

No. 308. Prize Taker or Spanish King — Large and of fine flavor. The outside skin is a rich straw color, the flesh pure white, sweet, mild and tender. Ripens up fine and hard. Pkt. 5c.; oz. 20c.; 2 ozs. 35c.; 1 lb. 60c.; 2 lbs. $2.00; 2 lbs. $3.00 postpaid.

No. 309. Extra Early White Pearl — The quickest of white sorts. Makes pearly white onions, tender, mild and of excellent flavor. Plant in the fall to make early spring onions, Pkt. 10c.; oz. 25c.; 2 ozs. 40c.; 1 lb. 70c.; 1 lb. $2.50; 2 lbs. $4.50; 5 lbs. $11.00 postpaid.

No. 310. Mammoth Silver King — One of the earliest and largest of Italian onions, often five to seven inches in diameter. Attractive shape, flattened at the top and nicely rounded at the bottom. Skin and flesh pure white; mild, sweet and tender, good other white onion grows as large. Pkt. 10c.; oz. 25c.; 2 ozs. 40c.; 1 lb. 70c.; 1 lb. $2.50; 2 lbs. $4.50; 5 lbs. $11.00 postpaid.

No. 301. Large Red Wethersfield — Large, somewhat flattened; skin purplish red; flesh purplish white hard and solid. Pkt. 5c.; oz. 20c.; 1 lb. 60c.; 1 lb. $1.50; 2 lbs. $2.80; 5 lbs. $6.50 postpaid.

No. 302. Yellow Globe Danvers — Medium to large size, averaging about 2 inches in diameter, uniformly globe shaped, have small necks and ripen very early. Pkt. 5c.; oz. 20c.; 2 ozs. 35c.; 1 lb. 60c.; 1 lb. 75c.; 2 lbs. $1.75; 5 lbs. $7.50 postpaid.

No. 303. Silver Skin or White Portugal — Pure white skin of good size, largely used for growing matured onions, for sets, for pickling, for bunching in the spring and as a salad when young. Pkt. 10c.; oz. 25c.; 1 lb. 60c.; 1 lb. $2.50; 2 lbs. $4.50; 5 lbs. $11.00 postpaid.
LETTUCE FOR FALL PLANTING

Lettuce requires rich, moist soil; clean and thorough cultivation and plenty of water. Plant till October, about 1-inch deep, and transplant to the open ground in November, setting the plants 8 to 12 inches apart in 18-inch rows. They should be protected with frames or hot beds. One ounce will produce about 1500 heads.

No. 230. Wood's Cabbage Lettuce

Hardiest and best lettuce for outdoor growing.

We introduced Wood's Cabbage Lettuce more than forty years ago, and in all these years we have not found its equal for fall sowing for wintering outdoors in the South. No lettuce will stand cold weather better. Makes a fine, large, firm, well-blanched head of excellent quality and sweet buttery flavor. Pkt. 10c.; oz. 20c.; 2 oz. 30c.; 1 lb. $0.50.; 2 lbs. $3.15.; 5 lbs. $7.50 postpaid.

No. 233. California Cream Butter

California Cream Butter

No. 242. Iceberg

No lettuce is more crisp, especially the large ribs, which are like celery stalks. A sure and reliable header. Forms a sweet, crisp and delicious. Pkt. 10c.; oz. 20c.; 2 oz. 30c.; 1 lb. 50c.; 2 lb. $1.75.; 2 lbs. $3.15.; 5 lbs. $7.50 postpaid.

Improved Hanson

No. 236. Improved Hanson

Improved Hanson

No. 237. Summer Allheart—An all seasons lettuce, for although primarily a summer variety it does well planted at all seasons. It succeeds everywhere and stands the hot outdoors splendidly. It makes a large, firm, compact head with well-blanched heart; the quality is excellent; the flavor is sweet and buttery. A satisfactory lettuce under all conditions. Pkt. 10c.; oz. 25c.; 2 oz. 30c.; 1 lb. 50c.; 2 lb. $1.75.; 2 lbs. $3.15; 5 lbs. $7.50 postpaid.

No. 238. Grand Rapids—Among the curled or loose leaved lettuces there is nothing handsomer than Grand Rapids. It makes a quick growth, is hardy and holds its crispness for days after being cut. Forms large, compact clusters finely crimped around the edges. Crisp and tender, sweet and delicious. It will stand more neglect than any other lettuce. Pkt. 5c.; oz. 15c.; 2 oz. 25c.; 1 lb. 40c.; 2 lbs. $2.50.; 5 lbs. $5.90 postpaid.

No. 239. Crisp-as-Ice

Neither early nor extra early, but a fine lettuce for the private garden. In delicate flavor and tenderness no other is superior. It is so crisp and brittle as to fully justify the name. The heads are hard with rich, creamy yellow hearts that are exceedingly tender and sweet, delicate flavor. Slow to start seed. Pkt. 10c.; oz. 20c.; 2 oz. 30c.; 1 lb. 50c.; 2 lbs. $1.40.; 5 lbs. $4.50 postpaid.

No. 241. Chicken Lettuce

Chicken Lettuce

Unlike any lettuce you have ever grown, one that will yield more chicken feed than any plant grown for greens. Three to four feet high, loaded with leaves that may be pulled like kale. After cutting it keeps on growing. Pkt. 10c.; oz. 25c.; 2 oz. 40c.; 1 lb. 60c.; 2 lbs. $1.20.; 5 lbs. $4.00 postpaid.

**WHITE MULTIPLIER.—**Qt. (1 lb.) 35c.; peck 90c.; peck (8 lbs.) $1.55 postpaid. Not postpaid, qt. 25c.; peck 70c.; peck $1.25.

**TELL POTATO—Small Sets—**Qt. (1 lb.) 40c.; peck 90c.; peck (8 lbs.) $1.70 postpaid. Not postpaid, qt. 30c.; peck 80c.; peck $1.50.

**TELL POTATO—Medium Size Sets—**Qt. (1 lb.) 35c.; peck 90c.; peck (8 lbs.) $1.25 postpaid. Not postpaid, qt. 25c.; peck 70c.; peck $1.00.

**PARSLEY**

---Plant half inch deep in September or October and give slight protection, or sow in cold-frame or hot-bed for winter use. Germinates slowly. Soak for twenty-four hours before planting.

**No. 314. Champion Moss Curled**

---The most improved and best. Beautifully curled and crimped. If cut when about three inches high, it starts a new growth that will be better curled and a brighter color. Pkt. 5c.; oz. 15c.; 1 lb. 40c.; 1 lb. $1.25; 2 lbs. $2.20 postpaid.

**RIEBARBOOKS**

---In November set out 4 feet apart each plant in a side place, using plenty of stable manure. Protect with manure during winter. By mail postpaid, 50c. each; 3 for 40c.; $1.25 per dozen.

**WINTER RADISHES**

---Plant during August, September or early October, half an inch apart and thin out. When freezing weather comes on peck in sand in a cold cellar, or bury them outside, and they will keep all winter. One ounce plants 50 feet of drill; 3 to 10 pounds plant an acre.

---Rose Cawina Winter—Cylindrical in shape; of medium size; bright deep rose-colored skin. The flesh is white, very solid and of the very finest quality; a fine keeper. Pkt. 5c.; oz. 10c.; 1 lb. 30c.; 1 lb. $1.00; 2 lbs. $1.80 postpaid.

---Chinese or Celestial—Always crisp, mild and stronger flavored color very dark green. Pkt. 5c.; oz. 15c.; 1 lb. 40c.; 1 lb. $1.25 postpaid.

---Long Black Spanish—One of the latest and hardest varieties. Has dark brown skin; oblong in shape, holding its thickness throughout. The flesh is white and of fine flavor. Pkt. 5c.; oz. 15c.; 1 lb. 30c.; 1 lb. $1.15; 2 lbs. $2.10 postpaid.

---Spinae—For fall use sow in August or September; for winter or spring sow from the end of September till December—one inch deep in drills 18 to 24 inches apart. Requires little cultivation. Two ounces will sow 100 feet of drill; 12 to 15 pounds, one acre.

---No. 402. Norfolk Savoy or Bloomsdale—Grows upright with thick, dark green leaves, curled like a savoy cabbage. Very Hardy and grows rapidly. Pkt. 5c.; oz. 10c.; 1 lb. 30c.; 1 lb. 85c.; 2 lbs. $1.75; 10 lbs. $2.20 postpaid. Not prepaid, 10 lbs. $2.65; 50 lbs. $12.50.

---No. 405. Long Standing Bloomsdale—Shoots to seed more slowly than ordinary Bloomsdale. Pkt. 5c.; oz. 10c.; 1 lb. 30c.; 1 lb. 85c.; 2 lbs. $1.75; 10 lbs. $2.25 postpaid. Not prepaid, 10 lbs. $2.90; 50-lb. lots, 25c. per lb.

---No. 403. Long Season—Forms a rosette of intense dark green, thick, tender, succulent, crumpled leaves. No other variety will stand so long without running to seed. Pkt. 5c.; oz. 10c.; 1 lb. 30c.; 1 lb. 85c.; 2 lbs. $1.75; 10 lbs. $2.25 postpaid. Not prepaid, 10 lbs. $2.90; 50-lb. lots, 25c. per lb.
Flower Seeds for Fall Planting

For full descriptions see our annual catalog.

In the South perennials, biennials and hardy annuals may be sown outside in the fall. These sowings make finer plants, earlier, larger and more brilliant blooms. Annuals should have a slight covering in extreme weather; tender perennials should be carried lightly—a good rule is to cover four to six times the diameter of the seeds; very fine seeds should be pressed into the soil. Half hardy varieties (marked H H) need protection; varieties marked (T) tender, should be wintered in the house.

Antirrhinum

**Bellflower**—No. 798. Belladonna; No. 799. Rellomosa, each, larger and more brilliant blooms. Annuals should have a slight covering in extreme weather; tender perennials should be carried lightly. Half hardy varieties (marked H H) need protection; varieties marked (T) tender, should be wintered in the house.

**Forget-Me-Not**—No. 852. Rose Pink; No. 853. Deep Blue, each, lovely and compact plants.

**Digitabilis**—No. 824. Rose Pink; No. 825. White; No. 826. Purple, each, pkt. 10c.; 1 oz. 35c.

**Alyssum**—No. 730. Saxatile Compactum Pkt. 10c.; 1 oz. 25c.; 1 oz. 50c.

**Shasta Daisy**—Pkt. 10c.; 1 oz. 25c.; 1 oz. 50c.

**Cowslip**—No. 763. Pkt. 10c.; 1 oz. 25c.; 1 oz. 50c.

**Carnation**—No. 682. Candytuft, White Perennial—Pkt. 10c.; 1 oz. 50c.

**Capeoalis**—No. 824. Rose Pink; No. 825. White; No. 826. Purple, each, pkt. 10c.; 1 oz. 35c.

**Gypsophila**—Perennial—Pkt. 10c.; 1 oz. 20c.

**Heliotrope**—No. 795. Loemoine Giant, pkt. 15c.; 1 oz. 40c.

**Hibiscus**—(Mallow Marvel)—Pkt. 10c.; 1 oz. 25c.; 1 oz. 50c.

**Hollyhock**—No. 902. Double White; No. 903. Double Pink; No. 904. Double Yellow; No. 905. Double Scarlet, each, pkt. 10c.; 1 oz. 25c.; 1 oz. 60c.

No. 1366. Lord Nelson or Brilliant Blue—A splendid flowered, each, pkt. 5c.; 1 oz. 15c.; 2 oz. 45c.; oz. 75c.

No. 1367. Queen Elizabeth—A clear light blue, the most pronounced of all the blues.

No. 1368. Janet Scott—A clear, deep, bright pink.

No. 1369. Mrs. Walter Wright—Rose purple; a protuse and continuous bloomer.

No. 1370. America—Crimson scarlet, striped on white; a fine large flower.

No. 1372. VIRGINIAN STOCK—Pkt. 5c.; 1 oz. 20c.; oz. 35c.

No. 1373. Mrs. Tom Jones—Bright delphinium blue; very lovely.

No. 1374. King Edward VII—Bright red or crimson scarlet; extra large.

No. 1375. Wood’s Special Mixture—A peerless mixture of grandiflora varieties and absolutely the finest that can be made. No dull colors, all choice giant-flowering varieties of every color, the colors being evenly distributed throughout. In diversity of color size, beauty of flowers no other grandiflora sweet pea mixture can surpass our “Special Mixture.” Pkt. 5c.; oz. 15c.; 1 lb. 30c.; lb. $1.00 postpaid.

No. 1376. Wood’s Superb Spencer Mixture—The newest type, differing from the grandiflora in having waved or frilled standards. Our mixture covers a wide range of colors from pure white to the deepest sweet pea colors. Pkt. 10c.; 1 oz. 20c.; lb. $2.00, postpaid.

No. 1377. Large Flowering Mixture—A very good mixture of standard grandiflora varieties that will give a pleasing display. Pkt. 5c.; 1 oz. 15c.; 1 lb. 25c.; lb. 75c. postpaid.

No. 1378. Perennial or EVERLASTING SWEET PEAS—These live year after year, bearing magnificent clusters of flowers early in the spring before the annual kinds begin to flower. Perfectly Hardy; 5 to 10 feet high. Mixed Colors. Pkt. 10c.; 1 oz. 30c.; oz. 50c.

No. 1379. Cupid Sweet Peas—Distinct from other sorts; 6 to 9 inches high, spreading out and forming a mass 12 ft. across. For pots, borders and beds. Pkt. 10c.; 1 oz. 15c.; 1 lb. 50c.; lb. $1.50 postpaid.

**SWEET PEAS IN MIXTURES**

Wood’s Giant Sweet Peas

**Spencer Sweet Peas**

**ALL VARIETIES—Pkt. 10c.; 1 oz. 25c.; 1 lb. 75c.; lb. $2.50, postpaid.**

No. 1330. Austin Frederick—An exquisite shade of lavender.

No. 1331. Constance Hinton—The best white Spencer. When first open the flowers have a tint of pink, and are a mix of white, and finely waved.

No. 1332. Crimson King—The most magnificent of all the crimson varieties.

No. 1333. Dobie’s Cream—Deep cream of unusual size. Very much waved, the standards sometimes being double.

No. 1335. Hercules—A splendid large rich pink waved flower often more than two inches across. Pkt. 5c.; oz. 15c.; 2 oz. 45c.; oz. 75c.

No. 1336. Miriam Beaver—Cream pink, overlaid with hyaline pink; large, waved and sometimes double; does not sunburn.

No. 1337. Mrs. Tom Jones—Bright delphinium blue; very lovely.

No. 1339. Robert Sydenham—Bright orange salmon; very individual.

No. 1340. Royal Purple—The name well describes the color—a rich royal purple. The finest purple yet introduced.

No. 1341. Royal Scot—Brilliant cerise; stands hot sun without fading or burning.

No. 1342. Warrior—Rich deep, pure maroon flushed with bronze; remarkably large and finely waved.

No. 1343. Wedgewood—A wonderfully beautiful shade of light blue; daintily waved or frilled.

**SWEET PEAS IN MIXTURES**

Wood's Grandiflora Giant Zinnias

**ALL VARIETIES—Pkt. 10c.; 1 oz. 25c.; 1 lb. 75c.; lb. $2.50, postpaid.**

No. 1322. MIXED FLOWER SEEDS—Pkt. 5c.; oz. 15c.; 1 lb. 75c.; lb. $1.75.
TIGRINUM SPENDENS (Improved Tiger Lily).—Very hardy flowers, while smaller than those of the Dutch. For a succession of bloom, bring the first out about December 1st, and every two weeks thereafter until February 1st. Keep moderately warm and when they begin to bloom, give plenty of water, and as much fresh air as possible. Too much heat dries up the flower and shortens the blooming period.

CULTURE IN OPEN GROUND.—Any good garden soil will suit Hyacinths, and the planting depth should be determined by the character of the soil. If clay or very heavy, do not cover more than three inches; if light, from four to six inches. Protect with manure, leaves or coarse litter to prevent freezing.

**Wood's Exhibition Hyacinths**

**In Separate Colors**

**WOOD'S SUPERIOR HYACINTHS** in separate colors can be sold at considerably less price than where it is necessary to keep and name each individual bulb separately. These bulbs are all good sized flowering bulbs much larger than the ordinary mixed Hyacinths, and give excellent satisfaction for general forcing, for cut flowers, or outdoor garden blooming in beds or borders.

Can furnish them in Pure White, White Shaded, Pink, Red, Light Blue, Dark Blue, Yellow and Mixed Colors.

**Minature, or Dutch Roman Hyacinths**

Together in pots or pans, or in beds in open ground.

- **Grandeur a Merveille.**—Blush white; large.
- **La Grandesse.**—Pure white.
- **Gertrude.**—Pink.

By mail postpaid, 12c. each; $1.20 per doz. Not prepaid, $1.10 per doz.; $3.00 per 100.

**White Roman Hyacinths**

-The flowers, while smaller than those of the Dutch Hyacinths, are borne in much greater abundance, each producing about six graceful spikes of bloom, which can be forced very easily, and if planted early and brought into the house at intervals of about two weeks, will yield a succession of blooms from Christmas to Easter.

By mail postpaid, 25c. each; $2.50 per doz. Not prepaid, $1.90 per doz.; $15.00 per 100.

**BEAUTIFUL JAPAN LILIES**

PLACE YOUR ORDER NOW FOR DELIVERY ON ARRIVAL ABOUT DEC. 10TH.

These are unsurpassed by any of the class of hardy plants. They begin flowering in May, and the various species continue in uninterrupted succession until autumn. Can be planted in the garden, either in the fall or early spring, but fall planting is better.

**AURATUM (Golden Banded Japan Lily)**—Large, pure white, thickly studded with crimson spots; each petal is marked through the center with a band of golden yellow. Blooms July and August. Price: large bulbs, 30c. each; $2.75 per dozen, postpaid. Not prepaid, 25c. each; $2.50 per dozen.

**SPEOSCIUM MAGNIFICUM**—Large flower; rich deep pink, spotted with crimson; flowers in August. Price: large bulbs, 30c. each; $2.75 per dozen postpaid. Not prepaid, 25c. each; $2.50 per dozen.

**SPEOSCIUM RUBRUM**—Delicate pink, almost white, spotted with red; flowers in August. Price: large bulbs, 30c. each; $2.75 per dozen postpaid. Not prepaid, 25c. each; $2.50 per dozen.

**SPEOSCIUM ALBUM**—The best late flowering; pure white with greenish band through center of each petal; flowers late August and September. Price: large bulbs, 55c. each; $3.25 per dozen postpaid. Not prepaid, 50c. each; $5.00 per dozen.

**WESTLILIES LILIJUM SCHNITZEL**—A pure white for growing in pots or outdoor. Plant during September or October. Price: 35c. each; $3.25 per dozen postpaid. Not prepaid, 30c. each; $3.00 per dozen.
TULIPS

THE MOST GORGEOUS AND SHOWY OF EARLY SPRING FLOWERS

Tulips make one of the most attractive and showy bedding flowers. The variety of colors and earliness to bloom make them particularly desirable for forcing or planting in the flower garden.

In preparing a bed have it so shaped that it will shed water, and the soil should be worked deep and made rich. Plant from 3 to 5 inches deep, according to the stiffness of the soil, and from 4 to 6 inches apart each way, and protect with leaves or coarse manure.

DUTCH BREEDER TULIPS

Tulips are similar in habit to the Darwins and flower at the same time. They produce immense blooms, borne on long stiff stems. The colors include many rare among flowers and run principally in the purple, maroon and terra cotta shades. These tulips are very valuable for the garden, producing by their refined colors a most artistic effect. Plant and treat like the Darwins.

SELECT SINGLE TULIPS

Our collections embrace the best sorts, and we have indicated their earliness of flowering by letters. Those marked "A" are the earliest flowers; "B" next, etc. Height in inches indicated by figures.

If sent by mail, add 5 cents per dozen, 25 cents per 100, for postage.

If sent by mail, add 5 cents per dozen, 25 cents per 100, for postage.

**Giant Darwin Tulips**

These gorgeous new late or May flowering Tulips are very stately and beautiful, producing immense flowers on tall, sturdy stems attaining a height of from two to three feet, and bearing on long stems beautiful globular flowers of remarkably heavy texture, in a large range of colors. They embrace almost every conceivable tint in rose, heliotrope, claret, maroon, crimson and other rich and rare shades. Unsurpassed for bedding and cutting.

The sorts offered below were selected out of a large collection as being the best and most distinct:

**CROCUS**

-One of the earliest blooming spring flowers and very effective in lawns and borders. They show off very prettily when planted in the rows of grass or in the borders. They are also very useful to plant in hyacinth or tulip beds between the rows, thereby giving a succession of early flowers. Set the bulbs two inches deep and two or three inches apart and plant as early in the fall as possible.

**LARGE FLOWERING NAMED CROCUS**

-Flowers much larger and borne in greater profusion than the mixed sorts. These bloom well in the house, planted two inches apart in shallow boxes of loamy soil. Most do well in the lawn, make a small hole about two inches deep with a double pointed stick, and then cover with a little extra soil. They can be planted in this way without disturbing the appearance of the lawn. After flowering, the cutting of the grass does not harm the bulbs, and they will appear year after year, proving an ever-recurring delight in the early spring. They are also very useful to plant in hyacinth or tulip beds between the rows, thereby giving a succession of early flowers.

**CALLA LILIES**

-Well-known house plants of great popularity. Of very easy culture, their one necessity being plenty of water. Our bulbs are large California dry roots, which are best for forcing, producing blooms much more abundantly than those usually grown in the house.

**WOOD’S SPECIAL MIXED DARWIN TULIPS**

-Composed entirely of named sorts, and contains a great variety of colors and shades. 60c. per dozen; $3.75 per 100 postpaid. Not prepaid, 50c. per dozen; $3.50 per 100 postpaid.

**WOOD’S SPECIAL NAMED DAEWIN TULIPS**

-Composed entirely of named sorts, and contains a great variety of colors and shades. 60c. per dozen; $3.75 per 100 postpaid. Not prepaid, 50c. per dozen; $3.50 per 100 postpaid.

**WOOD’S TESTED SEEDS**
Among early spring flowers these are in the front rank of popularity. Appearing just after winter, they animate our gardens with masses of gold and silver, while their fragrant blossoms in the home are invaluable for decorative purposes.

**CULTURE IN WATER.**—See under description of Giant White Narcissus for growing bulbs in water.

**CULTURE OUT OF DOORS.**—All varieties of Narcissus should be grown in clumps and patches in every suitable spot, and there is not a spot where grass will grow in which Narcissus will not succeed. In planting, be guided by the size of the bulb, allowing 4 to 5 inches between small sorts and 6 to 8 inches between large varieties. The bulbs will soon completely fill the space, forming a compact mass, and it is then their flowers are produced the most freely. Plant about 5 inches deep, according to the size of the bulb.

---

**GIANT WHITE NARCISSUS**

The Most Satisfactory Winter Blooming House Plant

They will bloom in water from six to eight weeks from time of planting, if not planted too early, and are superior to Chinese Lilies or any other narcissus for growing in water. The flowers are larger, more attractive in color and very fragrant. A very simple way to grow them is to place six or eight bulbs in a shallow bowl with water; support the bulbs with pebbles, and place the bowl in the dark until the roots have started, when they should be brought into the light. Change the water occasionally to keep it pure. From our experiments November, December and January plantings give best results. **Each, 15c.; dozen, $1.35; 100, $10.00 postpaid.**

---

**RISING SUN NARCISSUS**

This is a yellow narcissus exactly like the Giant White, except the flowers are a rich yellow instead of white, and a little later in blooming. Excellent for growing in water, and when grown this way will bloom in from eight to ten weeks. Plant six or eight bulbs in a bowl and give the same treatment as Giant White Narcissus. **Large bulbs, each, 20c.; dozen, $2.00 postpaid. Not prepaid, $1.90 per dozen; $15.00 per 100.**

---

**PAPER WHITE GRANDIFLORA NARCISSUS**

These are excellent for growing in water and rocks, provided they are not planted too early. From our experiments November, December and January plantings give best results. **Each, 12c. each; $1.10 per dozen; $7.50 per 100 postpaid. Not prepaid, $1.00 per dozen; $7.25 per 100.**

---

**DOUBLE FLOWERING NARCISSUS**

**Silver Phoenix**—Large, creamy white, fragrant flowers, with pale sulphur center. One of the finest double sorts. **Each 20c.; $1.35 per dozen; $14.25 per 100 postpaid. Not prepaid, $1.75 per dozen; $14.00 per 100.**

**Double Mixed**—Excellent for growing in masses for garden decoration. **Each 15c.; dozen $1.00 per dozen; $8.00 per 100 postpaid. Not prepaid, $1.00 per dozen; $7.50 per 100.**

---

**JONQUILS, OR SINGLE TRUMPET VARIETIES**

---

**LILIES OF THE VALLEY**—Small, pure white flowers. May be grown in pots in doors, or in shady places outside. Price: large imported pips, 75c. per dozen; $5.50 per 100. Ready about November 20th.

---

**SCILLA**—Grown with crocuses and snowdrops the effect is charming; fine for edging; a dozen bulbs in a 5-inch pot makes a pretty effect when grown indoors. **By mail postpaid, 60c. each; $4.00 per dozen.**

- 3 Bird size, 18 inches long by 21 inches wide by 21 inches high. By mail postpaid, $1.00 each. Not prepaid, 75c. each; $8.00 doz.
**Poultry Helps and Appliances**

**Spiral Celluloid Leg Bands**
- Made in five colors—White, Red, Black, Yellow and Blue.
- Five sizes—Order by number: No. 13 for turkeys and small fowls; No. 7 for Leghorns; No. 9 for Plymouth Rock and Rhode Island Red; No. 11 for Plymouth Rock and Rhode Island Reds.
- Bandets sold only in unbroken sets of 25 in 32 colors. By mail postpaid, 10c. per doz.; 25 for 20c.; 50 for 35c.; 100 for 60c.

**Bandets**
- Colored celluloid leg bands with big visible numbers. They are easily applied single handed, simply open out bands, hook it on leg, and allow it to close around the bird's leg. Made in five colors—blue, red, yellow, green and pink. For Leghorns: No. 11 for Plymouth Rock and Rhode Island Red.
- These ties are made expressly for us, and we guarantee them to meet all requirements. By mail postpaid, 35c. each; 25 for 50c.; 50 for $1.00; 100 for $1.80.

**Perfect Poultry Punch**
- Makes a good, clean, clear cut, and does not mutilate the web. These punches are made expressly for us, and we guarantee them to meet all requirements.
- By mail postpaid, 60c. each. Not prepaid, 55c. each.

**Glass Nest Eggs**
- Not easily broken. Will last a lifetime. Keep one egg in every nest. By mail postpaid, 40c. per dozen. Not prepaid, 3 for 10c.; dozen 30c.

**Knox Nest Eggs**
- Keeps the nest sweet and pure. They will not come in contact with the eggs as the eggs will become tainted. We recommend that they be put under the nesting material. By mail postpaid, 10c. each; 75c. per dozen. Not prepaid, 6c. each; 65c. per dozen.

**Rust's Lice Powder**
- For Dusting Poultry and Domestic Animals. Contains no naphthalene or other odorous ingredients; it does not affect the flavor of eggs or injure them for hatching.
- When Rust's Lice Powder is used, fowls are healthier, have a better appearance, their skin is healthier and their plumage is brighter. Rust's Lice Powder kills vermin on fowls, animals or plants, and is very economical to use. Directions on each box.
- 5-ounce box $ .15 10-ounce box $ .30 15-ounce box $ .60

**Rust's Water Glass**
- For Preserving Eggs. Eggs put away in this solution will keep fresh from six to ten months. Take advantage of the low price of eggs during the summer months and put them away for use next winter when they are always twice as high. One gallon will make enough solution for about fifty dozen eggs. 1-qt. can 40c.; 1-gal. can $1.25. Cannot be mailed.

**Wishbone Mash Hopper**
- Actually saves its cost in the fuel it saves in one month. Feeding trough extends all way around. Can't clog. Comes entirely apart for easy, quick cleaning. May be set on floor or hung from ceiling. Fitted with roller. Easier to fill. Birds cannot waste the feed.
- Capacity: 14 pounds 10½ in. 25 pounds 14½ in. 32 pounds 19½ in. 40 pounds 24½ in. 50 pounds 30½ in. 60 pounds 36½ in. 80 pounds 48½ in. 100 pounds 60½ in. 125 pounds 75½ in. 150 pounds 90½ in. 175 pounds 106½ in. 200 pounds 120½ in.
- By mail postpaid, 12½ for $1.25; 25 for $2.25; 50 for $5.00; 100 for $10.00.

**Wishbone Chick Feeders**
- The perfect chick feeder. Unobstructed feeding spaces on both sides of the trough. The revolving roller instantly throws chick off when he tries to perch on it. Made of extra heavy galvanized iron. No rough edges. Cannot upset. By mail postpaid, 1.00 each. Not prepaid, 80c. each.
- 12-inch Chick Feeder $ .50 18-inch Chick Feeder $ .65 12-inch Buttermilk Feeders (acid proof) $ .55 18-inch $ .65

**Grit and Shell Box**
- Manufactured from the best galvanized iron and contains three compartments for feed, shells or grit. It can be hung up against the wall at any height desired. It is the best self-feeding Grit Box on the market. By mail postpaid, 1-gal. size, $1.25; 2-gal. size, $2.25; 5-gal. size, $6.00.

**Duplex Wall Fountain**
- The most practical sanitary poultry fountain on the market. This is a double fountain, easy to fill, and keeps the water clean and pure. Made in two sizes. By mail postpaid, 1-gal. size $1.30 each; 2-gal. size $1.60 each. Not prepaid, 80c. each.

**Star Jar Fountain and Feeder**
- Fits any size Mason jar. Made of one piece of non-rusting metal. Provides drinking surface than the round fountain. Little chicks cannot get drowned. Can be used for feed and water. By mail postpaid, 1-qt. can $1.30 each; 2-qt. can $1.60 each; 5-gal. can $6.00 each. Not prepaid, 80c. each.

**Nifty Chick Feeder**
- An ideal baby chick feeder.
- The revolving roller prevents the chicks from perching on it or scratching out the feed.
- Price, postpaid, 35c. Not prepaid, 25c. each.

**The Handy Feeder**
- Can be used with any make fruit jar. The container is aluminum, the only metal in which sour milk or medicine can be fed with safety. The Handy Feeder is adjustable, simple and durable; rust proof and non-corroding.
- Price, postpaid, 35c. each. Not prepaid, 25c. each.

**Eclipse Feeding Trough**
- A popular priced feeding trough, made of galvanized iron, and intended for chicks and growing stock. The pan and top are both stamped in one piece. Sliding top makes them easy to fill and keep clean. Made in two sizes.
- No. 27—Length 16 inches. By mail postpaid, 30c. Not prepaid, 25c. each; $2.25 per dozen.
- No. 23—Length 29 inches. By mail postpaid, 45c. Not prepaid, 30c. each; $2.25 per dozen.

DUSTERS AND SPRAYERS

Peerless Dust Gun —A perfectly balanced gun that will not tire the operator, the lead being divided front and rear. Revolves on grease packed ball bearings. The agitator breaks up lumps and insures a constant feed. Applies insecticides to two rows at once to both sides of the leaf. Handles any dry powdered insecticide. Capacity 7 pounds calcium arsenate. By mail postpaid, $19.50. Not prepaid, $19.00.

California Beauty Duster —Easily operated and dusts any dry pow'dered insecticide. The flow is continuous, always under control, and the flow can be regulated and is applied to both sides of the leaf. An ideal duster for all garden crops, tobacco and cotton. By mail postpaid, $10.40. Not prepaid, $10.00.

Vernorel Duster —Simple, compact, efficient, double acting and easy to operate. Dusts both sides of the leaf. $25.65 postpaid. Not prepaid, $25.00.

Feeney Dust Guns —Model B—Applies powdered insecticides in a cloud; double acting. By mail postpaid, $1.10. Not prepaid, $1.00.

Model BX (Illustrated)—Like Model B, but has extension for applying insecticides under the leaf. By mail postpaid, $1.25. Not prepaid, $1.25.

Major Duster —Has an extension with angle nozzle for applying insecticide under the leaf. $1.40 postpaid. Not prepaid, $1.35.

Autocrat Duster —Of larger capacity; the extension has two angle nozzles to direct the flow upward. $1.25 postpaid. Not prepaid, $1.00.

Bucket Spray Pump —Double acting, made of a single piece of brass, except foot rest and handle—brass resists the corrosive action of spray chemicals. Has brass ball valves and leather packed glands. The air chamber is large to give a continuous spray and it is easy to operate. A splendid sprayer for general spraying, whitewashing, putting out fires, washing vehicles, etc. By mail postpaid, $4.25. Not prepaid, $4.00.

Continuous Sprayer —Gives a uniform continuous spray on both up and down stroke. Will spray fly oils, insecticides and disinfectants. Operates at any angle, all parts accessible for cleaning. By mail postpaid, $1.00. Not prepaid, 85c.

DUSTERS

Compressed Air Sprayers

—All have seamless brass pump cylinders, automatic shut-off nozzles; 2 feet hose and 12-inch brass extension pipe. They differ only in capacity and the material of which the tank is made.

PERFECTION—Capacity 4 gallons; galvanized steel tank, $6.90 postpaid; not prepaid, $6.50. Brass tank, $9.90 postpaid; not prepaid, $9.50.

ECONOMY—Capacity 32 gallons; galvanized steel tank, $8.35 postpaid. Not prepaid, $8.00.

Junior—Capacity 21 gallons; galvanized steel tank; $7.30 postpaid; not prepaid, $7.00.

Wheelerbarrow Spray Pump —An ideal outfit for large gardens, poultry plants. Develops 150 to 170 lbs. pressure; made of the best materials, all working parts of brass or bronze. The galvanized tank holds 12 gallons. Equipped with 6 feet of hose, nozzle, extension pipe and agitator. $15.50.

Auto Spray No. 5

A combination knapsack and bucket pump that throws any spray from a fine mist to a solid stream. Brass, pump double acting, practically indestructible and will generate 200 lbs. pressure. By detaching hose and attaching the strainer you have a first-class bucket pump. Fine for applying white wash, water paint, insecticides and disinfectants.

Knapack Outfit—Pump, tank, 21 feet of hose and strainer, $7.50

Bucket Outfit—Same as above, but without tank. By mail postpaid, $1.70. Not prepaid, $1.50.

Barrel Spray Pump —Has a bronze ball valves and brass seats; the plunger is self-ex- panding, the cylinder, valves, valve seats and discharge pipes are brass; these metals are not affected by spray chemicals. The air chamber is 32 inches long, 1½ inches in diameter, insuring a uniform, constant spray. Has good leverage, is powerful and easily operated. The cog gear head saves one-third the pumping labor, reduces the wear and strain on the pump and increases the pumping capacity. The entire pump sets inside the barrel, the working parts are submerged in the spraying liquid and does not lose priming. Make an 8x8 opening in the head of the barrel, bolt in the pump and it is ready for work.

Pump with 15 feet of hose, 6-foot extension pipe, agitator and nozzle, $16.00.
